

## **Road Watch Advisory for the City of Fort Myers**

### **Cleveland Grove Utility Improvement Project August 7, 2019**

The City of Fort Myers is scheduled to replace sanitary sewer and water main, install storm drainage improvements and regrade swales on Turner Street, Patrick Avenue and Kentucky Avenue. The project also includes new sidewalks on the west side of Turner Street, the north side of Patrick Avenue, the east side of Kentucky Avenue and roadway resurfacing.

#### **Patrick Avenue will close at Veronica S. Shoemaker Boulevard.**

- Closure will remain in place during daytime and nighttime/overnight hours until work is completed.
- Residents will need to access Patrick Avenue via Marion Street to Turner Street.
- Local traffic only will be accommodated between Veronica S. Shoemaker Boulevard and Turner Street.
- Through traffic to follow detour signs.

Crews are working in and near the roadways. Drivers, pedestrians and bicyclists should use caution and be aware of construction equipment and vehicles entering/exiting streets in the project area. Flaggers will be onsite during normal work hours to assist motorists through the construction zone. This schedule may be subject to change due to inclement weather and unforeseen underground conditions. The project is expected to be complete in Spring 2020.
