

Road Watch Advisory for the City of Fort Myers

Wastewater Interconnect Project – Phase III, Part IV Coronado Road February 2020

The City of Fort Myers continues work to replace underground sewer mains connecting to the Central Advanced Wastewater Treatment Plant. Phase III of the project replaces underground sewer pipe along Coronado Road from Cortez Boulevard to US-41; Nelson Street from Coronado Road to Braman Avenue; east on Braman Avenue to Grand Avenue; and north on Grand Avenue to Hanson Street.

Some sidewalks may be closed during the project. Crews are working in and near the roadway. Drivers, pedestrians and bicyclists should use caution and be aware of construction equipment and vehicles entering/exiting streets in the project area. This schedule may be subject to change due to inclement weather and unforeseen underground conditions. Phase III of this project is expected to be complete in spring 2020.
