December 1, 2021 Construction Update

The City of Fort Myers is planning for and installing a series of new raw water source wells to supplement the existing City wellfield. In September 2021, the City began construction on wells P-21 and P-22 as shown below.

Current Construction activities include:

P-22

- The well drilling **continues**.
- Motorists may experience intermittent lane closures and momentary traffic delays in the northbound lane of Veronica S. Shoemaker Boulevard just south of the North Colonial Linear Trail while crews move materials and equipment for the construction activities.

P-21

- **The well drilling contractor is onsite and is expected to start drilling.**
- **North Colonial Linear Trail is closed between Veronica S. Shoemaker Boulevard and Hodges University** due to the well construction. This closure will remain in place until further notice.

Transmission Main Pipe Installation

- Crews are currently fusing and staging transmission main pipe along the North Colonial Linear Trail between Veronica S. Shoemaker Boulevard and Province Park Boulevard.
- Crews are expected to begin their first underground pipe installation running north and south behind Green's Edge at Province Park.

For project information contact the City's public information consultant, Cella Molnar & Associates, Inc. at 239-337-1071, visit the "**Contact Us**" page on the project website to sign up for email updates and construction information at www.FortMyersUtilities.com, or email info@FortMyersUtilities.com.
