Updated information will be shown in orange

Construction Update

In June 2021, contractors for the City of Fort Myers started construction on the East Water Storage Tank and Pump Station. The project is expected to be completed in November 2022.

Construction activities include:

General Site

- Maintain the dewatering system

Water Storage Tank

- Tank and vault wall formwork and reinforcement
- **Friday, January 28, beginning at 2 a.m., crews are scheduled to pour wall sections of the concrete storage tank.**
 - This work is necessary to be completed in the early morning hours to avoid material delivery delays and to allow the concrete plant to supply the concrete demand without interruption.
 - Lighting and noise should be expected during this work and is unavoidable.
 - **Motorists should prepare for concrete trucks staging in the Treeline Avenue northbound turn lane between Plantation Gardens Drive and Silver Ridge Boulevard.**
