Updated information will be shown in orange

Construction Update

In June 2021, contractors for the City of Fort Myers started construction on the East Water Storage Tank and Pump Station. Crews are working Monday through Friday and some Saturdays. The project is expected to be completed in November 2022.

Construction activities include:

General Site

- Complete backfill around storage tank
- Initial equipment start up and operational readiness testing
- Install storm drain system

Water Storage Tank

- Install roof system along the backside of the tank
- Install roof downspouts around the tank

Electrical Building

- Generator load testing
